

Guidewire Software Enhances Education Offering

March 19, 2015

New Specialist, Professional, and Trainer certification levels broaden breadth and depth of training program – Guidewire PartnerConnect community among the first to benefit

FOSTER CITY, Calif.--(BUSINESS WIRE)--Mar. 19, 2015-- Guidewire Software® (NYSE:GWRE), a provider of software products to Property/Casualty (P/C) insurers, today announced significant enhancements to its Education offering. Guidewire Education has been designed to provide Guidewire PartnerConnect alliance members with the knowledge and skills needed to implement, manage, and upgrade Guidewire's expanding portfolio of products and aligns with software industry education and certification practices.

Guidewire's training offerings are specifically designed to enable self-sufficiency and optimize expertise with Guidewire products and services. Education tracks and associated curriculum support diverse training needs and allow project team members to create a customized training plan to best support their type of project, choice of products, experience level, and project role. Guidewire's new *Specialist, Professional, and Trainer* certifications span four categories: ClaimCenter Configuration, PolicyCenter Configuration, BillingCenter Configuration, and InsuranceSuite Integration. This provides students with expanded knowledge options and ensures in-depth exposure to Guidewire product functionality.

Guidewire Education enhancements include:

- Flexible training delivery options;
- Structured certification exams to validate Guidewire product knowledge;
- New certification logos by level and product; and
- Ability to confirm Guidewire certification level of an individual.

"Guidewire is committed to serving the needs of our global partner network through well designed software products and best practice programs," said Mike Polelle, chief delivery officer, Guidewire. "The objective of our Education program is to ensure that our partners have access to the same high quality training as we provide our own employees."

Pollelle continued, "As more organizations seek to transform their business and choose Guidewire products, the demand for knowledgeable product expertise has risen. We are providing our partners with the programs they need to help develop strong and viable Guidewire practices that add value, accelerate their overall performance, and, most importantly, best serve our mutual customers."

About Guidewire Software

Guidewire builds software products that help Property/Casualty insurers replace their legacy core systems and transform their business. Designed to be flexible and scalable, Guidewire products enable insurers to deliver excellent service, increase market share and lower operating costs. Guidewire InsuranceSuite™ provides the core systems used by insurers as operational systems of record. Additional products provide support for data management, business intelligence, anytime/anywhere access and guidance and monitoring. More than 180 Property/Casualty insurers around the world have selected Guidewire. For more information, please visit www.guidewire.com.
