Non-GAAP Financial Measures

This press release contains the following non-GAAP financial measures: Non-GAAP operating income (loss), Non-GAAP net income (loss), Non-GAAP net income (loss), Non-GAAP net income (loss) per share. Non-GAAP operating income (loss) excludes stock-based compensation and amortization of intangibles. Non-GAAP net income (loss), Non-GAAP income tax provision (benefit), and Non-GAAP net income (loss) per share also exclude the amortization of debt discount and issuance costs from our convertible notes and the related tax effects of the non-GAAP adjustments. The estimated annual tax rates used in the business outlook to compute GAAP and Non-GAAP net income exclude discrete items such as forecasted tax benefits related to stock-based compensation and are impacted by the passage of the Tax Cuts and Jobs Act.

Guidewire believes that these non-GAAP financial measures provide useful information to management and investors regarding certain financial and business trends relating to Guidewire's financial condition and results of operations. The Company's management uses these non-GAAP measures to compare the Company's performance to that of prior periods for trend analysis, for purposes of determining executive and senior management incentive compensation and for budgeting and planning purposes. The Company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the Company's financial measures with other software companies, many of which present similar non-GAAP financial measures to investors.

Management of the Company does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in the Company's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. Guidewire urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including the financial tables at the end of this press release, and not to rely on any single financial measure to evaluate the Company's business.
