

Guidewire Announces 2019.1 Release of P&C Insurance Industry Platform to Accelerate Insurer Growth

May 7, 2019

FOSTER CITY, Calif.--(BUSINESS WIRE)--May 7, 2019-- Guidewire Software, Inc. (NYSE: GWRE), provider of the industry platform Property and Casualty (P&C) insurers rely upon, today announced the 2019.1 release of [Guidewire InsurancePlatform™](#). This latest release supports insurers' imperatives to optimize operations, be more digital, use data in new ways, and innovate quickly. Underlying these business drivers is a general theme to simplify and de-risk insurers' IT environments.

"Insurers today are driving towards more continuous delivery of technology enabled capabilities to their internal and external stakeholders. Increased release cadence of vended core systems like Guidewire InsurancePlatform, will help insurers address increasing time to market demands and improved upgrade experience," said Martina Conlon, executive vice president, Research and Consulting and practice leader for property/casualty at Novarica.

Guidewire InsurancePlatform has been designed to power the P&C insurance business, in support of the following key insurer imperatives:

Use data in new ways: InsurancePlatform helps insurers drive smart decisions across the insurance lifecycle by leveraging scientific techniques and delivering actionable insights at the time key decisions are being made:

- New innovations in Guidewire Predictive Analytics™ make it easier to import and operationalize models built with third-party software, prevent overfitting of certain variables, allow for gradual adoption of model recommendation, and monitor overall impact on claims, pricing, and submissions.

Improve digital engagement: To meet rising digital expectations, InsurancePlatform 2019.1 helps insurers increase digital engagement by digitizing every interaction and delivering a satisfying, consumer grade, omnichannel experience.

- Provides more streamlined quoting experiences for customers, agents, brokers, and customer service representatives (CSRs) through enhanced quote flow navigation that enables users to move back and forth in quote flows while maintaining the integrity of the data submitted, thus improving the speed and efficiency of the quoting process.
- Innovative error handling in Guidewire ProducerEngage™ and Guidewire ServiceRepEngage™ notifies agents, brokers and CSRs of data entry errors and qualification issues as they occur, allowing them to address issues right away to save time and avoid working on quotes that cannot be bound. The alerts fall into three categories: error messages, warnings, and underwriting approval alerts.

Innovate quickly: To empower insurers to respond to changing competition and new entrants, InsurancePlatform enables innovation while reducing complexity of integrations with promising insurtechs as well as established players.

- Insurers can choose from 100 Guidewire validated third party solution integrations currently available for download in the Guidewire Marketplace.
- Guidewire PartnerConnect™ Solution partners added since the October 2018 release include: ACI Worldwide, Advanced Remarketing Services, Franco Signor, Mirror Technologies, Omadi, Ontellus, TruePic, and Zipwhip.
- In the past four months, 7 Solution Partners have signed up to use the new [Guidewire DevConnect™](#) developer environment to create plug and play *Ready for Guidewire* add-ons for ClaimCenter: Advanced Remarketing Services, Livegenic, Mirror Technologies, Omadi, Ontellus, TruePic and WeGoLook.

Simplify IT complexity: InsurancePlatform reduces IT complexity and minimizes the operational burden with key infrastructure improvements to InsuranceSuite.

- The Policy Migration Tool reduces the cost and risk associated with legacy policy migration into Guidewire PolicyCenter™ by providing a supported tool that simplifies the process.
- The InsuranceSuite Behavior Testing Framework promotes better collaboration between business and IT by enabling business analysts to create InsuranceSuite test scenarios in everyday language.

"InsurancePlatform releases remain focused on simplifying the technology that supports insurers, while improving digital engagement across the customer lifecycle, enabling insurers to achieve their business imperatives," said Ayan Sarkar, principal, InsurancePlatform, Guidewire. "2019.1 unveils exciting new products, features, and tools in support of these objectives."

Guidewire InsuranceSuite™ has been positioned as a Leader in Gartner's Magic Quadrant for P&C Core Platforms, North America¹. Guidewire Software has also been positioned as a Leader in Gartner's Magic Quadrant for Non-Life-Insurance Platforms, Europe².
