

Guidewire Wins Two XCelent Awards for Policy Administration

July 2, 2020

PolicyCenter recognized by Celent with top honors for Advanced Technology and Customer Base in North America

SAN MATEO, Calif.--(BUSINESS WIRE)--Jul. 2, 2020-- Guidewire Software, Inc. (NYSE: GWRE), the platform Property and Casualty (P&C) insurers trust to engage, innovate, and grow efficiently, today announced that PolicyCenter has again been named the winner of two XCelent Awards in Celent's *Policy Administration Systems: North America Property Casualty Edition: 2020 XCelent Awards, Powered by Vendor Match*¹ report. PolicyCenter was recognized as the top solution out of 31 policy administration systems in the Advanced Technology and Customer Base categories. InsuranceNow was also included in the report. The XCelent Award for the best solution in the "Advanced Technology" category is based on several criteria, including the platform and codernity, user interface (UI), data and adaptability/extendibility, integration, scalability and cloud, and ease of change. The XCelent Award for the leading solution in the "Customer Base" category considered the number of North American customers in production with various systems for personal, commercial, or specialty lines of business, and new client momentum in the region.

"PolicyCenter continues to be one of the leading policy administration systems in the industry," said Donald Light, Celent research director and coauthor of the report. "We recognized it for its upgraded UI; the effective additions of CustomerEngage and ProducerEngage digital applications for agents, prospects, and policyholders; and its introduction of the Advanced Product Designer component."

Regarding InsuranceNow, Light said, "InsuranceNow provides well-designed, broad policy administration functionality for insurers writing low to mid-level complexity business and who want a fully integrated end-to-end suite. InsuranceNow is also a cloud-based option for small and midsized carriers." Read the InsuranceNow report excerpt [here](#).
