*New partner's TRUPAY technology to reduce invoicing and premium audit costs, while helping increase customer retention*

WALTHAM, Mass. & SAN MATEO, Calif.--(BUSINESS WIRE)--Mar. 18, 2021-- Split Limit Studios, LLC, a leading provider of pay-as-you-go workers' compensation billing solutions, and Guidewire Software, Inc. (NYSE: GWRE), the platform P&C insurers trust to engage, innovate, and grow efficiently, today announced that Split Limit Studios (SLS) has joined Guidewire PartnerConnect as a *Solution* partner.

SLS delivers its TRUPAY® platform, a comprehensive pay-as-you-go workers' compensation billing solution, to insurers, enabling them to offer pay-as-you-go policies with accurate and automatic premium calculation using payroll data directly from payroll companies. SLS's *Ready for Guidewire PolicyCenter* integration will enable Guidewire users to integrate to TRUPAY.

"Pay-as-you-go billing for workers' compensation is now mainstream and policyholders expect insurers to offer this billing option," said George Kostakos, chief executive officer, Split Limit Studios. "Building a solution to support pay-as-you-go billing can be time consuming and expensive, so we offer our solution to save insurers this work while satisfying policyholder expectations. We are thrilled to partner with Guidewire and soon offer our comprehensive billing solution integrated within Guidewire to our shared customers, making it even more simple to offer pay-as-you-go billing for worker's compensation."

"We are excited to welcome Split Limit Studios as our latest Guidewire PartnerConnect *Solution* partner," said Becky Mattick, vice president, Global Solution Alliances, Guidewire Software. "SLS's solution minimizes audit surprises, as well as bad debts at the end of the policy term by drawing directly from payroll data to accurately match premium with risk. This creates a 'win-win' situation for insurers and their insureds. We are pleased to soon offer this technology integrated with Guidewire and extend these benefits to our joint customers."
