n2uitive's Recorded Statement Solution Now Available in Guidewire Marketplace

October 12, 2021

The new n2record™ integration for ClaimCenter simplifies the claims interview and recorded statement process for insurers

SAN MATEO, Calif. & SEATTLE--(BUSINESS WIRE)--Oct. 12, 2021-- Guidewire Software, Inc. (NYSE: GWRE) and n2uitive Corporation (n2uitive), a leading claims interview and recorded statement management solution, and a Guidewire PartnerConnect Solution partner, today announced that n2uitive's new *Ready for Guidewire* validated app for ClaimCenter is now available to users in the Guidewire Marketplace.

n2record™ is n2uitive's comprehensive, cloud-based recorded statement solution that streamlines the overall statement workflow for insurers. Recordings are automatically indexed and stored in a secure statement library, making them easily searchable and accessible. The solution also enables users to share statements quickly and securely from the library to approved external parties and transcription services. Insurers can utilize the solution's insightful reports and analytics to better understand statement practices, leading to more consistent and accurate claim outcomes. The n2record *Ready for Guidewire accelerator* further simplifies the overall process, ensuring a seamless transition between both platforms.

With the n2record accelerator for ClaimCenter, insurers can:

- Initiate a recorded statement at the click of a button without leaving ClaimCenter;
- Increase the accuracy of relevant claims data and eliminate redundant data entry through automatically prepopulated claim numbers and information; and
- Quickly find and listen to statements, order transcripts, export files, and associate them directly with the claim file.

"Claims investigations and recorded statements are foundational to the customer's claims experience and the insurer's ability to deliver consistent and accurate claim outcomes," said Joel Gendelman, chief executive officer, n2uitive Corporation. "Our ClaimCenter accelerator streamlines the recorded statement process for adjusters and provides valuable insights that help claims organizations improve the statement process and deliver consistent outcomes."

"We congratulate n2uitive on the publication of its recorded statement accelerator for ClaimCenter," said Becky Mattick, vice president, Solution Alliances Strategy, Guidewire Software. "Taking a recorded statement from a claimant was once a time-consuming and manual process. n2uitive's technology and the n2record Guidewire accelerator can vastly simplify the recorded statement workflow, reducing time and redundant effort for adjusters."

About n2uitive Corporation

n2uitive is a cloud-based claims interview and recorded statement management platform for auto, home and workers compensation insurers. n2uitive's n2record™ solution transforms the recorded statement workflow by streamlining the recording, storing and indexing, sharing, and transcribing of claims statements. A trusted tool used by more than 40 insurers, TPAs and self-insured corporations, n2record securely records, stores and indexes more than 1.5 million statements per year and houses more than 15 million statements and transcripts. n2record provides claims organizations with a unified, secure recorded statement solution that simplifies processes, reduces expenses and supports industry-wide best practices.
