

Earnix and Guidewire Partner to Provide Robust Integration of Mission-Critical Solutions to Insurers

September 13, 2022

Earnix joins Guidewire PartnerConnect Solution Alliance Ecosystem

SAN MATEO, Calif. & LONDON--(BUSINESS WIRE)--Sep. 13, 2022-- Guidewire (NYSE: GWRE) and Earnix announced that the two companies have launched a collaborative effort to facilitate faster adoption and increased ongoing performance of their shared offerings. Earnix is a global provider of real-time AI-driven rating, analytical underwriting, dynamic pricing, product personalization, and fully operationalized telematics solutions for Insurance and Banking. Earnix has joined Guidewire PartnerConnect as a *Solution* partner at the Select level.

Insurers want to engage better with customers and agents, innovate faster, and grow their business efficiently. Achieving these goals necessitates continually removing friction across the insurance lifecycle, so that insurers can move faster, whether that be introducing new or improved products, testing pricing changes, improving customer experience, or driving efficiency through automation.

"We are excited to work with Guidewire to help insurers move faster and smarter," said Dror Pockard, Chief Strategy Officer, Earnix. "By integrating Advanced Product Designer and PolicyCenter from Guidewire with Price-it from Earnix, we will accelerate speed to value by reducing implementation time and costs and accelerate insurers' speed to market in defining and updating prices and products, and testing products in market."

"The API first approach of Guidewire Cloud has enabled us to create an open platform, making it much easier to connect with other systems and data providers, increasing customer value, and adding more data-driven intelligence to our core platform," said Eugene Lee, Senior Vice President and General Manager, InsuranceSuite, Guidewire. "Our partnership with Earnix is a great example of this and we are delighted to welcome them as our newest Guidewire PartnerConnect Solution partner."
