March 7, 2024

SAN MATEO, Calif.--(BUSINESS WIRE)--Mar. 7, 2024-- Guidewire (NYSE: GWRE) today announced its financial results for the fiscal quarter ended January 31, 2024.

"Our strong performance in the second quarter was marked by eleven cloud deals, including a healthy mix of migrations, expansions, and net-new customers," said Mike Rosenbaum, chief executive officer, Guidewire. "The enthusiasm and interest we've seen around Guidewire Cloud Platform is testament to our team's hard work and our commitment to innovation and excellence."

"We are pleased with the continued cloud momentum, enabling us to beat and raise our ARR outlook and deliver 65% non-GAAP subscription and support gross margins in the quarter," said Jeff Cooper, chief financial officer, Guidewire. "Our fiscal year 2024 revenue outlook change is due to lower expected services revenue, as we are seeing success with our SI partners leading more cloud engagements at a pace that is faster than we originally expected. We are maintaining our profitability outlook as strong subscription and support gross margin and operating expense discipline offset the impact of lower services revenue."

Non-GAAP Financial Measures and Other Metrics

This press release contains the following non-GAAP financial measures: non-GAAP gross profit, non-GAAP income (loss) from operations, non-GAAP net income (loss), non-GAAP tax provision (benefit), non-GAAP net income (loss) per share, and free cash flow. Non-GAAP gross profit and non-GAAP income (loss) from operations exclude stock-based compensation, amortization of intangibles, and acquisition consideration holdback. Non-GAAP net income (loss) and non-GAAP tax provision (benefit) also exclude the amortization of debt issuance costs from our convertible senior notes, gain on sale of strategic investment, and the related tax effects of the non-GAAP adjustments. Additionally, Non-GAAP net income (loss) per share excludes the interest expense on convertible debt. Free cash flow consists of net cash flow provided by (used in) operating activities less cash used for purchases of property and equipment and capitalized software development costs. These non-GAAP measures enable us to analyze our financial performance without the effects of certain non-cash items such as amortization and stock-based compensation.

Annual recurring revenue ("ARR") is used to quantify the annualized recurring value outlined in active customer contracts at the end of a reporting period. ARR includes the annualized recurring value of term licenses, subscription agreements, support contracts, and hosting agreements based on customer contractual terms and invoicing activities for the current reporting period, which may not be the same as the timing and amount of revenue recognized. ARR reflects all fee changes due to contract renewals, non-renewals, expansion, cancellations, attrition, or renegotiations at a higher or lower fee arrangement that are effective as of the ARR reporting date. All components of the licensing and other arrangements that are not expected to recur (primarily perpetual licenses and professional services) are excluded from our ARR calculations. In some arrangements with multiple performance obligations, a portion of recurring license and support or subscription contract value is allocated to services revenue for revenue recognition purposes, but does not get allocated for purposes of calculating ARR. This revenue allocation only impacts the initial term of the contract. This means that as we increase arrangements with multiple performance obligations that include services at discounted rates, more of the total contract value will be recognized as services revenue, but our reported ARR amount will not be impacted. During the six months ended January 31, 2024, the recurring license and support or subscription contract value recognized as services revenue was \$5.2 million.

Guidewire believes that these non-GAAP financial measures and other metrics provide useful information to management and investors regarding certain financial and business trends relating to Guidewire's financial condition and results of operations. Guidewire's management uses these non-GAAP measures and other metrics to compare the Company's performance to that of prior periods for trend analysis, for purposes of determining executive and senior management incentive compensation, and for budgeting and planning purposes. Guidewire believes that the use of these non-GAAP financial measures and other metrics provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing Guidewire's financial measures with other software companies, many of which present similar non-GAAP financial measures and other metrics to investors.

Guidewire's management does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in Guidewire's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. Guidewire urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including the financial tables at the end of this press release, and not to rely on any single financial measure to evaluate Guidewire's business.
