Non-GAAP Financial Measures and Other Metrics

This press release contains the following non-GAAP financial measures: non-GAAP gross profit, non-GAAP income (loss) from operations, non-GAAP net income (loss), non-GAAP income tax provision (benefit), non-GAAP net income (loss) per share, and free cash flow. Non-GAAP gross profit and non-GAAP income (loss) from operations exclude stock-based compensation, amortization of intangibles, and acquisition consideration holdback. Non-GAAP net income (loss), non-GAAP income tax provision (benefit), and non-GAAP net income (loss) per share also exclude the amortization of debt discount and issuance costs from our convertible notes and the related tax effects of the non-GAAP adjustments. Free cash flow consists of net cash flow provided by (used in) operating activities less cash used for purchases of property and equipment and capitalized software development costs. These Non-GAAP measures enable us to analyze our financial performance without the effects of certain non-cash items such as depreciation, amortization, stock-based compensation, and changes in fair value of strategic investments.

Annual recurring revenue ("ARR") is used to quantify the annualized recurring value outlined in active customer contracts at the end of a reporting period. ARR includes the annualized recurring value of term licenses, subscription agreements, support contracts, and hosting agreements based on customer contracts, which may not be the same as the timing and amount of revenue recognized. All components of the licensing and other arrangements that are not expected to recur (primarily perpetual licenses and professional services) are excluded. In some arrangements with multiple performance obligations, a portion of recurring license and support or subscription contract value is allocated to services revenue for revenue recognized as we increase arrangements with multiple performance obligations that include services at discounted rates, more of the total contract value will be recognized as services revenue, but our reported ARR amount will not be impacted. During the three months ended October 31, 2021, the recurring license and support or subscription contract value recognized as services revenue was \$0.9 million.

Guidewire believes that these non-GAAP financial measures and other metrics provide useful information to management and investors regarding certain financial and business trends relating to Guidewire's financial condition and results of operations.

The Company's management uses these non-GAAP measures and other metrics to compare the Company's performance to that of prior periods for trend analysis, for purposes of determining executive and senior management incentive compensation, and for budgeting and planning purposes. The Company believes that the use of these non-GAAP financial measures and other metrics provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the Company's financial measures with other software companies, many of which present similar non-GAAP financial measures and other metrics to investors.

Management of the Company does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in the Company's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. Guidewire urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including the financial tables at the end of this press release, and not to rely on any single financial measure to evaluate the Company's business.

These forward-looking statements are made as of the date they were first issued and were based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Words such as "expect," "anticipate," "should," "believe," "hope," "target," "project," "goals," "estimate," "potential," "predict," "may," "will," "might," "could," "intend," variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond Guidewire's control. In particular, the following factors, among others, could cause results to differ materially from those expressed or implied by such forward-looking statements: quarterly and annual operating results may fluctuate more than expected; the impact of the COVID-19 pandemic on our employees and our business and the businesses of our customers, system integrator ("SI") partners, and vendors; seasonal and other variations related to our customer agreements and related revenue recognition may cause significant fluctuations in our results of operations and cash flows; our reliance on sales to and renewals from a relatively small number of large customers for a substantial portion of our revenue; our ability to successfully manage any changes to our business model, including the transition of our products to cloud offerings and the costs related to cloud operations; our products or cloud-based services may experience data security breaches; we face intense competition in our market; our services revenue produces lower gross margins than our license, subscription and support revenue; our product development and sales cycles are lengthy and may be affected by factors outside of our control; changes in accounting guidance, such as revenue recognition, which have and may cause us to experience greater volatility in our quarterly and annual results; assertions by third parties that we violate their intellectual property rights could substantially harm our business; weakened global economic conditions may adversely affect the P&C insurance industry including the rate of information technology spending; general political or destabilizing events, including war, conflict or acts of terrorism; our ability to sell our products is highly dependent on the quality of our professional services and SI partners; the risk of losing key employees; the challenges of international operations, including changes in foreign exchange rates; and other risks and uncertainties. Past performance is not necessarily indicative of future results. The forward-looking statements included in this press release represent Guidewire's views as of the date of this press release. The Company anticipates that subsequent events and developments will cause its views to change. Guidewire undertakes no intention or obligation to update or revise any forwardlooking statements, whether as a result of new information, future events or otherwise. | Pro forma weighted average shares — diluted | 83,225,743 | 84,199,574 | |

(1) Effective the first quarter of fiscal year 2022, the acquisition consideration holdback is excluded from non-GAAP measures. Prior to the first quarter of fiscal year 2022, there was no acquisition consideration holdback in any periods presented.
 (2) Adjustments reflect the impact on the tax benefit (provision) from all non-GAAP adjustments.
 (3) Due to the occurrence of a net loss on a GAAP basis, potentially dilutive securities were excluded from the calculation of GAAP net income (loss) per share, as they would have an anti-dilutive effect. However, these shares have a dilutive effect on non-GAAP net income (loss) per share and, therefore, are included in the non-GAAP net income (loss) per share calculation.
